## 1 Here is a figure

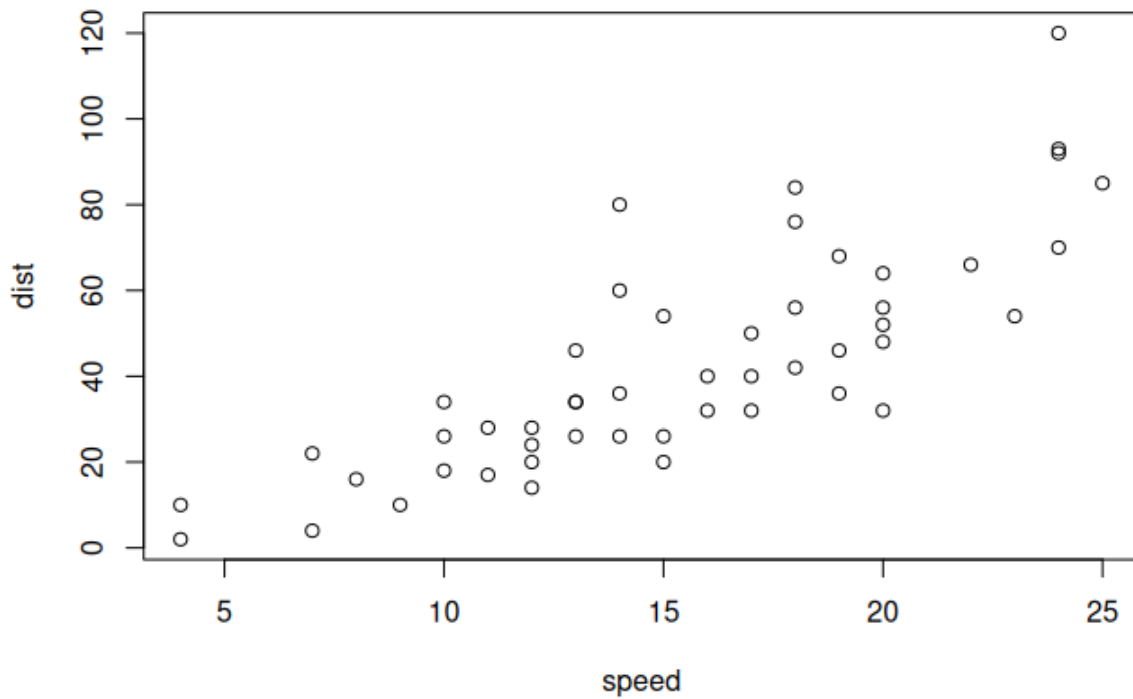

Figure 1: Something else to do with cars

## 2 Here is the putting of a figure inside another built in environment

### Example 2.1.

Here is an example.

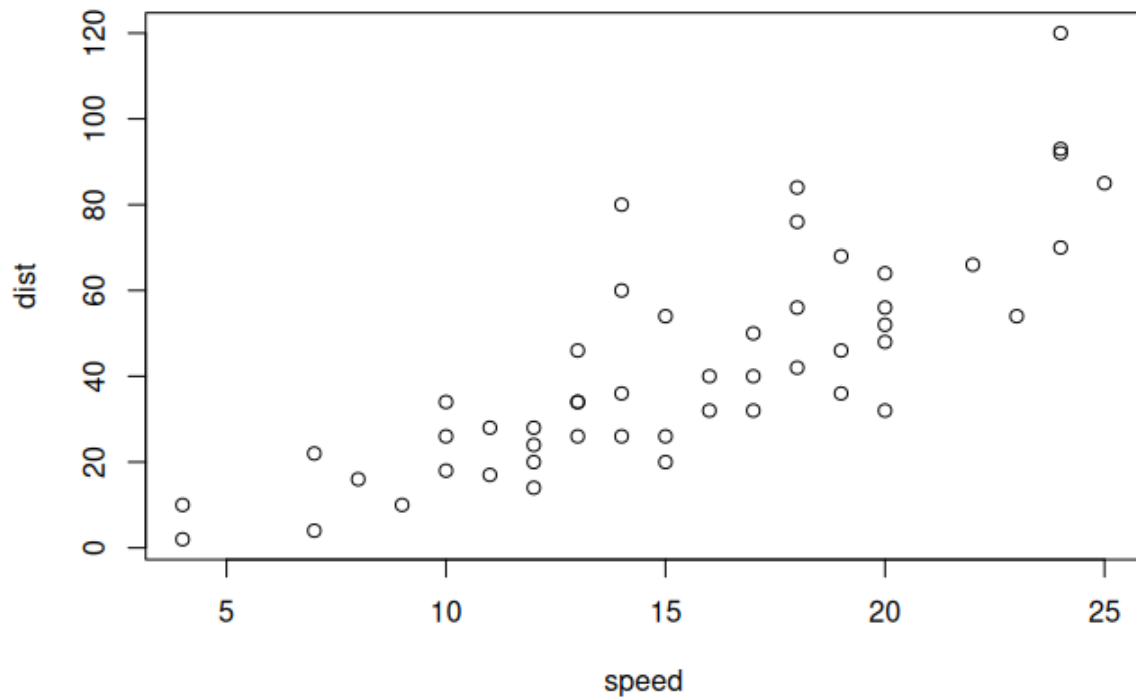

Figure 2: Something to do with cars

This is a test. So, you need an empty line before and after the above for it to be a float. At the end of an environment this means that you need TWO empty lines. This is Pandoc.

### 3 Here is the putting of a figure inside a newtheorem

**Example.**

An example

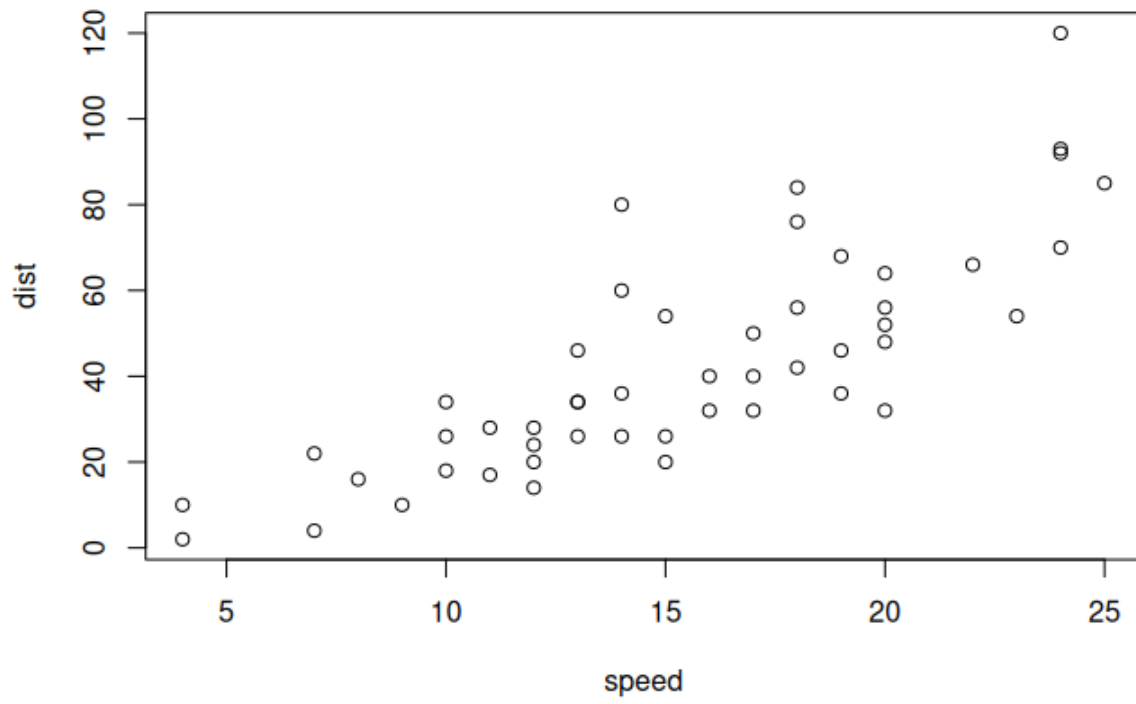

Figure 3: Something to do with cars

#### 4 Here is when we set width - and everything is different now

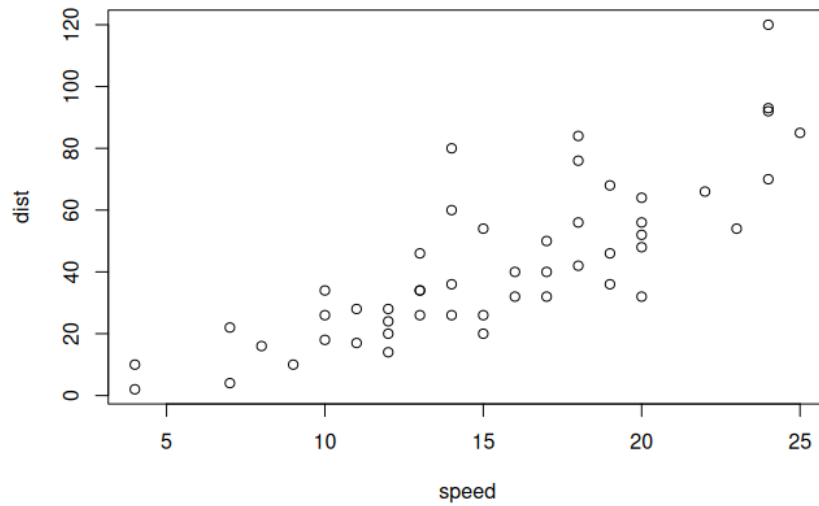

Figure 4: Something else to do with cars
