Test 004: New theorems, numbering and styles

Emma Cliffe, Skills Centre: MASH, University of Bath

August 2020

Contents

1 Testing some theorem stuff	1
2 Testing the reference link back	1
1 Testing some theorem stuff	
Definition 1.1. Here is a definition	
Example 1.1. Here is an example.	
Here is some more boring text in between.	
Theorem 1.1 (Foo). Bookdown is needed for things like theorems and internal references	
Proposition 1.2 (Thingy we need for 1.1). You can create new theorem types	
Proof (Of theorem 1.1). Here is a proof	
Proof of theorem 1.1. Here is a proof	
Proposition 1.3. Bookdown is needed for things like theorems and internal references	
Thought 1.1 (Bar of 1.1). You can create new theorem types	
Defns. You can create new unumbered theorem types	
Nugget 1.2. You can create new theorem types	
Example. An example	
Solution 1.1. You can create new theorem types	
Exercises. Here is a question	
Solution. Test	

2 Testing the reference link back

Now go to theorem 1.1 or thought 1.1

Solution. Test

Definition 1.1. Here is a definition

Thought 1.1 (Bar of 1.1). You can create new theorem types

Now an actual new thing:

Thought 2.1. Stuff and nonsense
