1 Testing some theorem stuff

Definition 1.1.

Here is a definition

Example 1.1.

Here is an example.

Here is some more boring text in between.

Theorem 1.1 (Foo).

Bookdown is needed for things like theorems and internal references

Proposition 1.2 (Thingy we need for 1.1).

Proof (Of theorem 1.1).
Here is a proof
Proof of theorem 1.1. Here is a proof
Proposition 1.3.
Bookdown is needed for things like theorems and internal references
Thought 1.1 (Bar of 1.1).
You can create new theorem types
Defns.
You can create new unumbered theorem types
Nugget 1.2.
You can create new theorem types
Example.
An example
Solution 1.1.
You can create new theorem types
F ace with a second control of the second c
Exercises.
Here is a question
Solution.
Test

You can create new theorem types

2 Testing the reference link back

Now go to theorem 1.1 or thought 1	.1
------------------------------------	----

Solution.

Test

Definition 1.1.

Here is a definition

Thought 1.1 (Bar of 1.1).

You can create new theorem types

Now an actual new thing:

Thought 2.1.

Stuff and nonsense
