Test 013: New theorems, numbering and styles with lists immediately inside and a newline present in clear and large

Emma Cliffe, Skills Centre: MASH, University of Bath

September 2022

Contents

1	Itemize without theorem	1
2	Testing some theorem stuff	1
3	Testing the reference link back	2

1 Itemize without theorem

- One
- Two

2 Testing some theorem stuff

Definition 2.1.

- One
- Two

Here is a definition.

Example 2.1.

- One
- Two

Here is an example.

Here is some more boring text in between.

Theorem 2.1 (Foo).

- \bullet One
- Two

Bookdown is needed for things like theorems and internal references

Proposition 2.2 (Thingy we need for 2.1).

- One
- Two

You can create new theorem types

Thought 2.1 (Bar of 2.1).

- One
- Two

You can create new theorem types

Proof (Of theorem 2.1).

 \bullet One

ullet Two	
Here is a proof	
Proof of theorem 2.1. • One • Two	
Here is a proof	
Defns.	
You can create new unumbered theorem types	
Nugget 2.2. • One • Two	
You can create new theorem types	
 Example. One Two 	
$An\ example$	
Solution 2.1.OneTwo	
You can create new theorem types	
 Exercises. One Two 	
Here is a question	
Solution. • One • Two	
Test	
3 Testing the reference link back	
Now go to theorem 2.1 or thought 2.1	
Solution. • One • Two	
Test	
Definition 2.1. • One	

 \bullet Two

Here is a definition.

Thought 2.1 (Bar of 2.1). \bullet One

- Two

You can create new theorem types

Now an actual new thing:

Thought 3.1.

- One Two

Stuff and nonsense
